Bryant Klein

(201) 207-0296   kleinb1616@gmail.com Fair Lawn / New Jersey [LinkedIn](#)   [Github](#) [Portfolio](#)

Skills
JavaScript, React.js, Python, Redux.js, Express, Flask, Flask-SQLAlchemy, Node.js, HTML5, CSS3, Sequelize, SQL

Projects

BB Scouting (Python, React / Redux, Flask, HTML, CSS)   [Live Site](#) | [Github](#)
Description
- Implemented picture and video uploading using AWS S3 which improved response times and decreased server loads.
- Designed customized React form components to track information about new players that are stored in a database
- Constructed API endpoints with RESTful standards using Python, Flask and SQLAlchemy to communicate data between the client and server.

AirBnB Clone (Python, React / Redux, Flask, HTML, CSS)   [Live Site](#) | [Github](#)
Description
- Devised a search algorithm to query and find all properties in the database within proximity of search keywords using the Google Maps API
- Established individual user reservations on properties by creating a relationship between a reservation table and property table
- Utilized React and Redux to communicate reviews of individual properties to the database and dynamically update statistics.

OpenTable Clone (JavaScript, Express, React / Redux, HTML5, CSS)   [Live Site](#) | [Github](#)
Description
- Developed a favorite option that utilizes a Redux store to communicate with the database and store individual user's favorite trainers.
- Introduced a display of all trainers in the database with individual trainer cards that dynamically update the number of reviews and ratings of trainers.
- Ensure user privacy and autonomy by integrating user authentication along with bcrypt's hashing function for secure password storing

Experience

Klein Fitness and Sports Training
Personal Trainer/ Strength and Conditioning Coach   Aug 2016 - Present
- Oversaw and coordinated strength and conditioning programs for teams of 50-100 highschool and college athletes
